

YOUR NAME

Charlotte, NC | you@example.com | linkedin.com/in/yourname | github.com/yourname | yourname.dev

EDUCATION

Your University

Charlotte, NC

Bachelor of Science in Computer Science Expected May 2028

- Relevant coursework includes Data Structures, Databases, Web Development, and Intro to AI.

EXPERIENCE

Teaching Assistant, Intro to Programming in Python

January 2026 to Present

Your University, Department of Computer Science Charlotte, NC

- Lead weekly lab sessions for 35 students, helping them debug Python code and finish 8 programming assignments.
- Wrote 12 practice problems with automated tests in Python and pytest, cutting repeat office hours questions by about 30%.

PROJECTS

AI Study Assistant | [Live Demo](#) | [GitHub](#)

August 2026

- Built a web app with Python, FastAPI, and an open-source LLM that turns lecture notes into practice quizzes, deployed on Hugging Face Spaces.
- Used by 40+ classmates during finals, generating 1,500+ practice questions in its first month.

Campus Events Finder | [Live Demo](#) | [GitHub](#)

March 2026

- Built a searchable events calendar with React, TypeScript, and Firebase that pulls events from 30+ student clubs into one place, deployed on Vercel.
- Reached 600+ visits in its first semester after launching it in club group chats.

LEADERSHIP

Webmaster, Student Tech Club

August 2025 to Present

- Built the club's website and member portal with Next.js and Supabase, used by 60+ members to RSVP for events and track workshop attendance.
- Led a team of 4 that shipped the portal in 6 weeks using GitHub Issues and pull requests.

SKILLS

Languages Python, JavaScript, TypeScript, SQL

Frameworks React, Next.js, FastAPI

Tools Git, GitHub, Firebase, Supabase, Azure, Hugging Face

CERTIFICATIONS

Azure Fundamentals (AZ-900), Microsoft

September 2026

This example was created by [Segun Akinyemi](#) based on the resume of a student who successfully interviewed with him and other Microsoft engineers in September 2026 for a software engineering internship focused on AI. The interviews included an [AI-assisted coding round on HackerRank](#), where candidates can use AI while they code. The details here are fictional, but the patterns are real.
